REASON FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The instant invention is not anticipated by nor render obvious over the prior art references of record. The references considered to be the closest prior art to the current invention are WENHAO (CN ZL94113646.9) in view of DOLAN (U.S. 5,985,153). WENHAO teaches a dual cavity magnetized fuel saver with three cylindrical magnets with a gap of 0.5 mm and intrinsic coercivity of 18000 – 20000 Oersted. DOLAN teaches a magnetic field gradient of as high as 200 kGauss/cm. WENHAO in view of DOLAN does not teach the air gap magnetic field intensity and it would not have been obvious to one of ordinary skill in the art to have ensured that it was at least 800 Gauss.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
